PNAIS CALENDAR DATA ENTRY GUIDELINES

Note: because a login is not required, when you submit a calendar entry, the site does not automatically supply information about you and your school. As a result, you will want to follow the guidelines below:

Event Title Field

Be sure to include the name of your school in the "Event Title" field. This is the "headline" parents will see when visiting the calendar on our site. This text, when posted to the site, serves as a link to the text you enter in the "Event Detail" field (see below).

Event Note Field

Text entered into this field will appear below the Event Title on the calendar. This is a useful space to enter a short descriptive phrase such as "Middle School Open House."

Event Body Field

This text appears after a user clicks on the Event Title described above. This is a good location to add the address and contact information for your school, as well as a short description of the event.

ADDING AN EVENT TO THE PNAIS PROFESSIONAL DEVELOPMENT CALENDAR (NO LOGIN REQUIRED)
